SMALL BUSINESS

CORE COMPETENCIES

Cloud Architecture & DevSecOps

Cloud-native modernization, infrastructure-as-code, secure CI/CD, and operational hardening.

Remote Systems Management

Secure remote administration, monitoring, and support for distributed mission environments.

Cross-Platform Data Integration

Interoperable API integrations, data pipelines, and unified operational data across systems.

End-to-End Supply Chain Visibility Analytics

Operational dashboards, KPI telemetry, and decision-ready analytics across supply chains.

RELEVANT EXPERIENCE

Amazon Bedrock / SageMaker — Conversational AI Systems

Architected and deployed 4 production-grade conversational AI systems and 1 autonomous AI agent at UMB Financial Corporation using Amazon Bedrock, SageMaker, and Amazon Q Business.

Oracle Enterprise Infrastructure

Senior engineering roles supporting large-scale enterprise infrastructure deployments and systems integration across multi-cloud environments.

Amazon — Cloud & Operations Engineering

Cloud engineering and operational systems support at Amazon, applying military-grade process discipline to high-availability infrastructure.

WHY VECTRA CORE SYSTEMS

- ▶ Decorated U.S. Army veteran founder — 90% VA disability rating (SDVOSB eligible)
- ▶ MS in Big Data & Information Technology; BS in Mathematics & Statistics
- ▶ Production AI/ML experience on AWS GovCloud-compatible services
- ▶ Military precision applied to every contract — on time, on budget, no excuses
- ▶ Dual capability across IT systems AND logistics — rare integrated offering
- ▶ Cloud-native architecture: AWS, Azure, GCP, AWS GovCloud
- ▶ Near-term enterprise cloud operations support for mission-critical workloads
